

PerfoN

FLEXIBLE PACKAGING

Applications

- ◆ Sliced meat
- ◆ Cheese
- ◆ Pastry
- ◆ Fish

PP SHEETS

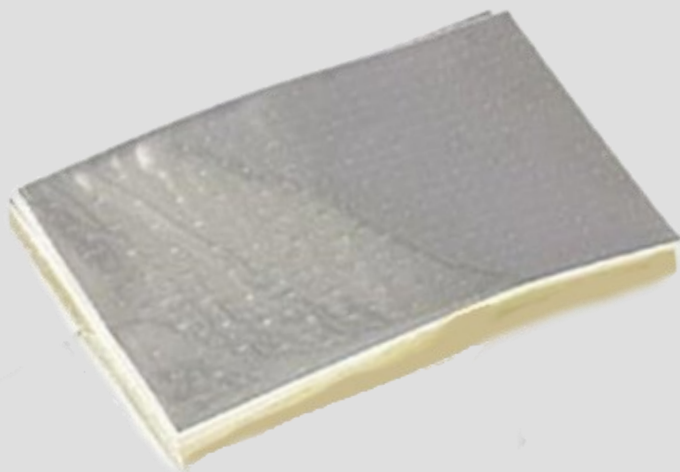

Enhances hygienic use

Excellent protection and prevents adhesion

Support food safety protocols

The sheets will enhance a hygienic use of your products. This will support food safety protocols. The sheets will also add additional protection to the product inside and prevent cheese slices or meats from sticking together. The sheets can be delivered in every possible size you desire.

To increase the ease of use, it is possible to provide the sheets with a hot-needle, macro or laser perforation. As a result, the sheets can be easily separated from each other.

Perfon Flexible Packaging has more than 40 years of experience in producing flexible packaging solutions for the food- and non-food industry. Our high quality transparent films can be produced with hotneedle-, macro- and laser perforation. Are you looking to have a printing on the film? No problem, due to our flexo printing technique we have the possibility to add a full colour printing up to ten colours. Our company is part of the OPACKGROUP, a strong co-operation of seven companies, all specialized in a different aspect within the world of flexible packaging solutions. Combined we can offer you the latest innovations and the most sustainable packaging solutions in the market.
